

6012692 BLUESTAR ARCTIC F

DESCRIPTION

Seamless knitted two layered liners with ORRA™ fully coated cut resistant gloves. Outer layer is with plied steel, HPPE, nylon/polyester/spandex and inner layer is 10gg acrylic terry brushed liner. This glove is extreme cold resistant, flexible, soft and breathable. Thin ORRA™ nitrile coating with good dexterity on fingertip, maximum abrasion, excellent dry and wet grip. Steel-HPPE yarns provides very high cut resistance. Acrylic terry inner liner provides warmth in cold conditions. Actifresh sanitized.

FEATURES

- Cold resistant
- Cut resistant (level F)
- Soft, flexible and breathable
- Excellent abrasion resistance
- Enhanced wet and dry grip
- Actifresh sanitized

Print and color may vary.

SUITABLE FOR

- Cold storage and extreme cold application
- Metal fabrication
- General maintenance
- Glass industries
- Sheet Metal handling
